Walsh, 9; nays, Gould, 1.

To the Honorable Mayor and Common Council of the city of Owosso:
Your committee to whom was referred the report of the Board of Public Works on paving beg leave to report as follows: We have examined the maps, profiles, diagrams and other matters submitted by the Board.

The specifications, contracts and other papers have been examined by the city attorney and we would recommend their adoption with such changes as made by the city attorney. We would recommend that the engineer be directed to complete the map, profiles and diagrams as soon as the widths of pavement and grades be decided upon by the council. We would further recommend the adoptions of plans as submitted by the engineer for all special work, and when grades and curb notes are placed on said plans we would advise their adoption as a whole.

a whole.

We endorse the recommendation of the Board
of Public Works as to reserving bids on both
brick pavement on concrete and asphalt pavement on concrete and also on leaving open to
the bidders, the kind of stone for curbing.

the bidders, the kind of stone for curbing.

We would recommend that the width of paving in the various streets in the paving districts be adopted as recommended by the Board of Public Works. Vis: On Washington street from Mason to Comstock street, width 69 ft. On Washington from Comstock to Race street 48 ft. On Washington St. from Race St. to Shlawassee river 40 ft. On Exchange from Park to Water St. 60 ft. On Main St. from Park to Water St. 60. On Ball St. from Exchange to Race 36 ft. On Comstock St. from Washington to Race 36 ft. On Race St. from

Washington to Main 36 ft. Park St. from Main to Exchange 36 ft.

Washington to Main 36 ft. Park St. from Main to Exchange 36 ft.

It is opinion of your committee that the width of paving in business district should be great as practicable. A 66 ft. street is recommended. Because of the inequalities of grade and width of walks makes it desirable to to keep out from the present line of walk. Also a 60 ft. street enables us to secure good width without removing telephone, telegraph or trolley poles, hydrants or fountains and it also enables us to properly set and fill out back of the curb. We will have wider paving than most cities of the country, only three or four streets in cities in this state being any wider.

We advise the adoption of recommendation of the Board of Public Works as to protection of the Board of Public Works as to protection and setting of permanent monuments, and would advise that the council employ the city engineer Horace Main to make the necessary survey and set temporary corners before paving begins, and see that the same are properly placed with permanent stones during paving. We endorse the recommendation of the Board of Public Works as to the amount of the Board of Public Works as to the amount of the Certified check and bond to be required.

We recommend the adoption of the ordinances transmitted by the Board of Public Works when their form has been approved by thee city attorney. The grades established by these ordinances afford sufficient fall in each block to carry surface water to catch basins. They conform very closely to the present surface grades of the streets and cause very few changes in existing sidewalk grades, and very little damage will result to adjacent property.

We would recommend the printing of not less than 100 copies of various documents and thoroughly believe that it would be advisable to have 300 copies printed for use in subsequent paving work as all of these forms are so drawn that they can be used for any paving in the city of Owesso.

We recommend the adoption of a resolution matricitier the original part of the original

of Owosso.

We recommend the adoption of a resolution

of Owosso.

We recommend the adoption of a resolution instructing the printing committee to close a contract with the lowest bidder for printing copies of paving specifications, and that the same be done immediately.

We recommend a resolution instructing the Ways and Means committee for the issuing and sale of paving bonds. We recommend the passage of a resolution setting a date for the opening of bids and the award of contract, that date not later than June 1st.

We recommend advertising in one Owosso paper and putting one insertion in one or two reading engineer and contracting journals, such as the Engineer News and Engineer Rocord. We would advise immediate action in this matter as we do not believe it will be possible to complete the work before Sept. Ist even if no time be lost by farther delay.

We would advise not undertaking to pave Main street from the west line of Washington St. to the bridge on Shiawassee river this year. We would recommend the adaption of a resolution instructing the Board of Public Works to proceed as provided in the charter and under the direction of the council to advertise for bids for paving in the following districts: Washington St. from Mason to Shiawassee river bridge, Exchange St. from Park to Water St. Main St. from Washington to Park St. And that the said Board Public Works be directed to let the contract for such paving to lowest responsible bidder and the necessary storm water sewers and other structures as provided in the city charter, provided such paving cost not to exceed &S.000 and if the bids on said work exceed the sum of \$3.000 that the said Board recommend to the council to cut off such paving as will suffice to bring the work awarded within the limits of \$35,000.

Estimates of the said works are as follows: Washington St. as recommended from Mason

awarded within the limits of \$35,000.

Estimates of the said works are as follows:
Washington St. as recommended from Mason
to Main St., \$7,772.54. Washington St. as recommended from Main to Shiawassee river,
\$10,184.13. Main St. as recommended from Park
to Washington \$3290.43. Exchange St. as recommended from Patk to Water \$10,552.40.
Strom water sewers and incidentals \$5000.00;
total \$35,399.50. It is our opinion when the
bids are received on the amount of paving, that
it will not exceed \$52,000.00 and that is why we
advised paving the amount of district we
recommended to be paved.

To the Honorable Mayor—The committee on public grounds and public buildings to whom was referred the matter of fitting up the outer city hall for a council chamber, be leave to report the following: First, we recommend that a partition be built across the north cut and the city hall for a council chamber, be leave to report the following: First, we recommend that a partition be built across the north end and the window at the end of the hall be for the purpose of lighting the same. Second, we find only three living rooms for the city driver, and in order to close the present door leading out into this hall we recommend the following: That a hall be build across the bedroom leading to the sitting room, and twelve feet of the present council chamber be taken for a bedroom and the balance left for clerk and treasurer's office. This will give ample living room and will furnish a hall into the same, also to the city clerk's and treasurer's office from the present stairway. With these changes we shall be able to fit up a pleasant council chamber and clerk and treasurer's office here at a cost of \$80.00. We also recommend the adoption of the following resolution. J. W. Jordan, T. M. Wiley, J. T. Walsh.

Resolved, by the common council of the city of Owosso that the committee on P. B. and P. G. be and are hereby instructed to refit the outer hall: into a council chamber, and the north portion of the present council chamber for the city clerk and treasurer's office, and make the same as convenient and practical as possible.
